

# City Vision Research Findings

(Data for 2016 church attendance will be released July 2017)

The following pages are from Master File of Twin Cities Churches  
Listed in order of largest individual church attendance / Multi-sites identified  
Attendance gain or loss 2010-2015

**100 Largest Churches**  
**100 Largest Protestant Churches**  
**Twin Cities Minnesota**

**CITY VISION.** For over 20 years, City Vision under direction of Rev. Dr. John Mayer has been gathering and reporting local church statistics for the Twin Cities metro area Minnesota.

City Vision's 185-page **City View Report** – available at [www.cityvisiontc.org/cityview-reports](http://www.cityvisiontc.org/cityview-reports) – is known to be the most comprehensive church reporting for any major metropolitan area in the world!

**DATABASE.** City Vision has now migrated to a modern cloud-based relational database system for storing, analyzing and reporting on this massive amount of church data.

The City Vision database has active records on over 3,600 Twin Cities Churches – by name, location, age, denomination, leadership, attendance and other data, updated continuously.

**METHODS.** City Vision sends letters, emails and texts to all Twin Cities churches to update data at least once each year. Most churches recognize the important role of City Vision and report promptly.

If a church does not report in a timely manner, City Vision calls the church to get the data.

Sometimes, though rarely, a church will refuse to disclose attendance numbers, in which case City Vision contacts individuals within the church and/or people who know the church well in order to make attendance estimates.

**CORRECTIONS AND UPDATES.** If you find any data in this report that needs to be corrected or updated, please notify [jam@cityvisiontc.org](mailto:jam@cityvisiontc.org).
